

Upgrade Your Old Mercury or Halogen Lamp with LED!

- Turns on and off without any warm up or cool down time
- Less expensive than a mercury or metal halide system
- Minimal hazardous waste - no bulbs to dispose
- Never have to purchase replacement bulbs
- Long life = 20 years = Low operating costs
- Improves scientific data collection
- Operates at low temperatures
- Never have to align a bulb
- Includes built-in shutter
- Low energy usage
- Easy to use

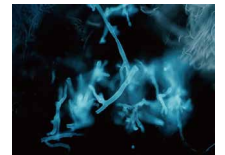

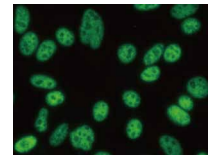

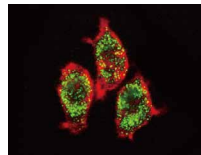

Fluorescence

Brightfield

Fluorescence Models:

- Single wavelength (No movement)
